

Quick Guide: GoPro Session

Shutter Button

Menu/WiFi Button

1 Video Filming

PRESS SHUTTER
1 Second Press.

CHECK STATUS
That Video is recording

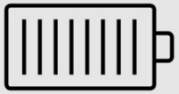

TO STOP
Press Shutter 1 Sec

We recommend using Video format to avoid blurring.

Are you recording?

Flashing light means record

Battery Status

Pair with GoPro App

Avoid Time lapse

Keep Lens Clean

2 Check out your footage!

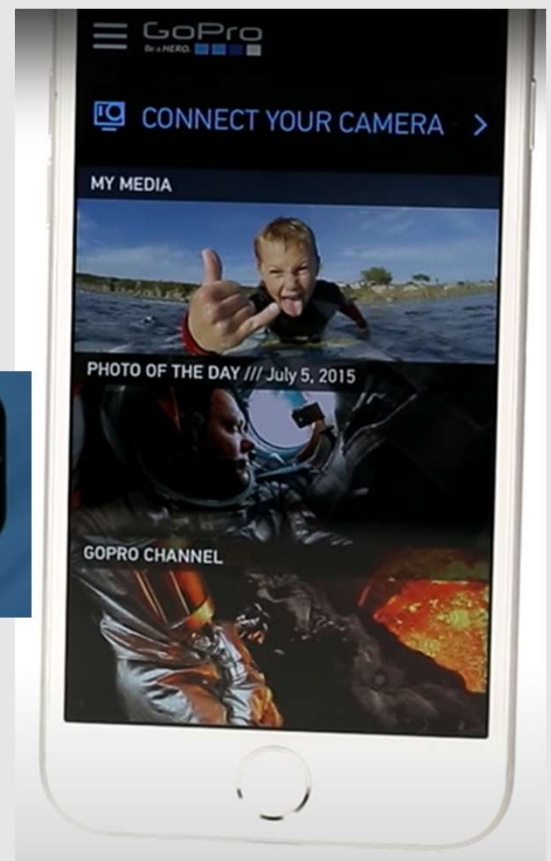

You have the option to take your **Micro SD Card away with you** and view/edit your footage on your home computer or device. Our crew will remove the card for you on the return to Port as the device will need washing.

OR

Download the FREE GoPro App on your apple or android phone. You can then synch your phone to GoPro, to view, edit or share footage straight away!

Password: SHARKS

HOT TIP:

Avoid keeping the devices paired all day (blue Flashing light) as it lessens the battery life from 2 hours down to 30min.
